To: Members of the Association

Subject: Exemption from Withholding Tax on Electricity Bills

Dear Member,

The Income Tax Ordinance provides exemption from withholding Tax to “manufacturer-cum-exporter” which means a person whose exports in the preceding tax year constitute 80% or more of the goods manufactured by him.

Therefore, those members who fulfill the above requirements may send their request for exemption to the Association so that their request may be recommended to the Federal Board of Revenue. The requests should be accompanied with the following documents:

1. Photocopy of preceding tax year income tax return
2. Photocopy of electricity bills

Since the matter is urgent, the requests for exemption may be submitted in the Association by the 17th September 2008.

Yours truly,

Syed Usman Ali
Chairman

Note: FBR has already provided an exemption list to electricity companies. So before sending the above details to us please visit TMA website and check your name and meter number etc. in the list provided by FBR to the electricity company.
