**Sub: WHY PAKISTANI MANUFACTURERS ARE HESITANT?**

Dear Sir,

First of all accept our heartily sorry for the floods situation in Pakistan. We pray for the better situation for your people very soon.  
We want to draw the attention of our MUSLIM BROTHER COUNTRYMEN , that this African zone is virgin trade zone. All over the world , the manufacturers are doing good business in this area. We are agreed that some individuals have spoiled the image , but what is the problem , if business can be done in a proper and secure way. If you can go in detail information's , you will find the INDIANS , LEABANESE , EUROPRAN , AMERICAN , THAILAND etc are doing huge business. We are intended to promote the market for Pakistani products. We have the means to provide safe and secure business for your business community, please circulate our proposal among your members. We shall be highly obliged.

Thanks

Mohammed Shamsu Yussif
